EDUCATION

University of Toronto

Sept 2025 – Present

Honours Bachelor of Science: Statistics Specialist

PROJECTS

Counter Strike Marketplace Trading System

Jan 2026 – Present

Python, REST APIs, Multithreading, Cloud Infrastructure, Git

(Live, Production)

- Engineered a Python trading bot that proxies 1,000,000+ market variants through 150 anchor listings, automating competitive buy orders to generate \$1,000+ in revenue with a 99% profitability rate and consistent 80%+ ROI
- Implemented adaptive rate limiting and concurrent request handling to stay within API limits while reducing runtime by 55% (20+ min to under 10 min)
- Extended the system with an auto-auction bot that re-lists inventory on 24h cycles to maximize item visibility and accelerate sales, deployed on a DigitalOcean cloud VM with GitHub-based CI
- Designed persistent state across runs using JSON, with automatic order recreation when listings are filled and real-time Discord alerts on bid changes

EXPERIENCE

Digital Content Creator — YouTube / Social Media

July 2023 – Present

- Generated \$20K+ USD in revenue through the YouTube Partner Program (YPP), sponsorships, and brand deals
- Analyzed audience retention and viewer activity data to optimize posting schedules and video formats, scaling to 140M+ views and 290K+ followers across platforms
- Performed content performance analysis on viral videos to identify replicable growth patterns, informing future production decisions

Math Tutor — Kwiki (UofT × Khan Academy Partnership)

Jan 2026 – Present

- Provided one-on-one mathematics tutoring, reinforcing structured problem-solving and analytical thinking

SKILLS

Programs: Python, R, Java

Systems: REST APIs, Multithreading, Cloud Infrastructure (DigitalOcean), CI/CD, Git

Data: Pandas, JSON, Regex
